

Meeting Time March 3rd 1:30 - 2:00 PM

In attendance:

Sophia Zhang  
Courteney Malin  
Alma Hernandez  
Kari Bowman  
Loydes Nieves  
Mackenzie  
Michelle Ruggia  
Molly Kurtz  
Nadeem Siddiqui  
Rishon Bates  
Seoyeon Yang  
Serban Eugen Cicortas  
Shawn Copeland  
Vivikth

Dining Issues: How can we attract people to go to Meadows Cafe

- Hours of operation would prefer weekends rather than weekdays
- On weekends catering to athletics, put signs up in the garage
- Daily operation hours are also not conducive to graduate students
- During events (formal, DBar parties) open late for food
- Hosting community events in the meadows cafe like coffee hours
- Larger signs in the area
- Student art to hang in cafe to give a greater sense of community
- More comfortable chairs to make it seem more of a lounge
- Food to be locked away so can use in the evening as a hangout area
- Vending machine for automated snacks and after hours
- Also adding it to Google Maps
- Lo: Resident incentive program like a punch card, discount for meadows residents
- Nadeem: 300,000 thousand dollar loss. Undergraduate students run their own coffee shop. Try to get graduate students to take more incentive?
  - Graduate student run cafe
  - Graduate students run everything (?)
  - Michelle Ruggia: there is one in the gc that is already funded by GC deposits and the coffee is free.
    - Vending concept or grad student operation of the cafe would not take away from the gc coffee house
  - Look into slack and see what grad students think overall
- There will be signs
- Alcohol sold in the Meadows has licensing issues and other bureaucratic issues
- Promotions with sales on certain products
- Added to Google Maps, need people to verify and make sure they can see it

- Subcommittee for the coffee shop proposals
  - Will need to communicate with graduate college on some of these since its a pretty major change

Package room: more organized

- Do we still have an organization person?
  - Yes, but depends on their availability and when the delivery has
  - Has been holding Amazon accountable, but they are being avoidant and no assistance on the weekends.

More trash cans in the parking garage

- Contact TPS
- TPS doing enforcement on weekends and evening
- High level staff member complained lol

Parking problems

- Pregnancy spots don't seem very feasible atm
- Less fire lane parking

Overall more receptive on slack and trying to reach out to people to ensure they concerns are addressed

- Water tastes funky but still safe
- Lights on the bridge
